

# Going to the Dentist

## A Social Story

Hi there! Ever wonder why people go to the dentist? It's because they want to keep their teeth super healthy and sparkling clean!

Sometimes when you visit the dentist, they'll give your teeth a nice, gentle cleaning. It's like giving your teeth a bath!

When I arrive at the dentist, I'll spend some time in the waiting room until it's my turn to see the dentist.

While waiting for my turn, I can read a book or play with the train in the waiting room.

When they call my name, I'll head over to the dentist's chair.  
It's like going on a little adventure.

Once I sit in the dentist's chair, I'll give a friendly "Hi" to the helper who will take care of me and my teeth. They will wear a mask and have cool instruments to clean and count my teeth. Sometimes we will go to a separate room to use their special camera to take pictures of my teeth!

Next up, it's time for the special toothbrush that will sparkle my teeth.  
It's a bit noisy and vibrates, but don't worry, it's just tickling  
your teeth clean!

Next, the dentist will come in to see me. They might ask me to say "Ahh," and that's when the fun begins! They'll use a mirror to help count all of my teeth and make sure they are healthy.

When the dentist is all done, they'll remove the napkin, and I'll wait until they say we're finished. I will get a special bag with goodies to take home! Then, I'll say "Bye" before heading out.

Ta-da! With my teeth all shiny and fresh, my family will be super proud of me for being a dental superstar!

Let's see where the real adventure will take us!

First stop — the waiting room! There are toys, books, and comfy chairs while you wait for your turn.

Next stop — the special room where you'll meet the dentist!  
There's a big chair that goes up and down like a ride.

Dr. Lisa and Dr. Lacey can't wait to see your smile.

Your visit will be just like the story — but even better,  
because it's YOUR story!

Lisa Carlson-Marks, DDS

Lacey Bowen Goergen, DDS
